December 11th, 1916

To the Editor of "Varsity",

Sir:

I have been asked to say a word in behalf of the "Varsity" Battery, No. 67. I do so with great pleasure. It is our own Battery, commanded by our own men, and has already in the nine months of its organisation done fine work. It offers excellent opportunity for those who are interested in the artillery branch of the army to serve in congenial company and to maintain something of the spirit of old "Varsity". This is a time of great need; the demand for men is growing rapidly. I would urge you with all emphasis to consider carefully what your duty is in the present circumstances.

President.

To the Editor of "Varsity",

By the authority of the Board of Governors and of the Senate a card is teing issued containing certain questions which every student (man and woman) is required to answer. The cards are to te returned not later than January 31st to the Registrar of the College or the Secretary of the Faculty to which the student telongs. These cards are issued for the purpose of securing accurate information as to the number of persons who will te available for various forms of National Service in the spring. I hope that students will fill in their answers with accuracy and will return the cards promptly.

President.

Dear Sir:

I transmit to you the translation of a letter that I received last week. I strongly endorse the object set forth in the letter, and I feel confident that the students will make a generous response to such a worthy appeal.
